We are very excited to announce that a CCS staff member, Mrs. Sznerch has been selected to participate in an amazing program that will benefit CCS and it's students. The application process is competitive, and we are proud that one of our own has been chosen to attend this workshop.

EinsteinPlus is a one-week intensive workshop for Canadian and international high school teachers that focuses on modern physics including quantum physics, special relativity, and cosmology.

EinsteinPlus also provides unique opportunities to learn some of the latest developments in physics from expert researchers at the forefront of their fields, enjoy lab tours, and take part in social events with like-minded teachers from around the world.

Sessions include:

- *Innovative teaching strategies suitable for all areas of physics
- *Quantum physics: Wave-particle duality and the electron double-slit experiment
- *GPS and relativity
- *Dark matter as an application of uniform circular motion
- *Measuring Planck's constant using a simple electronic circuit

Mrs. Sznerch will attend the workshop at the Perimeter Institute in Waterloo, Ontario from July 8th-12th, 2024.

We wish her safe travels and can't wait to see what she brings back!

Congratulations!
Mrs. Sznerch

Junior Badminton

Our Junior Badminton players have been keeping busy. During their home tournament on April 17th the following athletes won gold:

Maddy Dutchak and Paisley Wolkowski (Girls' Doubles)

Josie Mirva and William Sliva (Mixed Doubles)

Joshua Prychak (Boys' Singles)

At the Pregis tournament Maddy Dutchak and Josie Mirva came home with silver. On April 29th Conferences were held and a big congratulations goes out to Maddy Dutchak and Paisley Wolkowski who will be advancing to Districts on May 2nd!
